Economics / Computer Science, August 2002 – December 2003
Indiana University-Purdue University Indianapolis, Indianapolis, IN

Software Engineering, August 1999 – May 2002
Rochester Institute of Technology, Rochester, NY

EXPERIENCE **Circulation Assistant – Wicomico County Public Library – Salisbury, MD** *Jan 2017 – present*
Assist library patrons in the use of library services. Verify cash register receipts. Process ILL requests. Ensure library materials are accurately cataloged and shelved. Check in and out library items.

Volunteer – The Victory Center – Toledo, OH *Summer 2006, Oct 2007 – present*
Provide remote IT support services. Implemented a backup plan that includes local and cloud based backups. Updated, standardized and migrated donor and participant information to a database system. Simplified process to track items, guests and winners for the annual auction. Volunteered for programs and events throughout the year.

IT Specialist – Rossford Public Library – Rossford, OH *March 2008 – Aug 2015*
Managed and maintained the wired and wireless network, servers and workstations. Migrated servers to virtual machines using XenServer. Taught computer classes and held individual help sessions. Automated monthly statistical gathering. Managed metadata and material selection for the local history digitization project. Designed and implemented a staff website to replace numerous paper forms and staff scheduling. Regional trainer for consortium's migration to SirsiDynix Symphony.

Lab Teaching Assistant – Purdue University – West Lafayette, IN *Fall 2006 & Spring 2007*
Taught HTML and JavaScript to non-CS students. Reviewed labs and recommended improvements. Provided help to students outside of lab and during class help sessions (not a requirement for lab TAs).

Freelance Computer Technician *1996 – 2008*
Installed, updated and troubleshooted computer software, hardware and networks for individuals and households. Refurbished computers to be donated to non-profit and community organizations.

Programmer – National Technical Institute of the Deaf – Rochester, NY *Feb 2001 – Aug 2001*
Developed and updated web-based tools in VBScript, JavaScript, HTML and ASP to assist teachers in developing and maintaining class websites.
